We keep employees happy by delivering delicious, fresh, local products. New products are available every week to help keep staff engaged and excited.

Ask about our healthy vending machines for a cost-effective office option. Employers subsidize part of the cost and employees are happy to pick up the rest.

from restocking company shelves to helping you choose products we know employees will love.

- Unparalleled Commitment to Customer Service**

- Commitment to Environmental Sustainability**

It takes as little as 90 seconds/week to manage the process from ordering to putting out the food. We address dietary restrictions and provide local products.
